Participation fee

Participants have to be members of the EAAE at the time of registration for the Seminar. For those who are not yet a member, the EAAE membership fee is 100 Euro for the period 2016 – 2018

The participation fee for the seminar is **180 EUR for regular participants** and **100 EUR for PhD students**. The fee includes two lunches, one dinner, coffee breaks and conference materials but excludes accommodation (although this will be facilitated by the organizers).

The fee has to be paid by 2 November 2016.

Participants will be limited to 60-70 persons, including some local observers.

Call for papers

Participants who would like to present papers (posters) should submit the authorship file and the abstract text (max 700 words) as two separate pdf files via the online abstract submission on the website.

Details and layouts of both files can be found on the website.

Important dates

1 July 2016

Submission deadline for abstracts

15 August 2016

Review decision

15 August 2016

Start of registration

2 November 2016

Registration deadline

15 November 2016

Submission deadline of full papers

EAAE Seminar 160

Rural Jobs and the CAP

Analysis of the contribution of the CAP to European rural employment – past, present and future.

Warsaw (Poland) December 1-2, 2016 The Staszic Palace

Organizing Institutions:

IRWIR PAN Polish Academy of Sciences
Institute of Rural and Agricultural Development

Objectives

- a. To bring together European agricultural economists with an interest in the employment aspects of agricultural, agri-environment and rural policy.
- b. To consider the implications of the current CAP for farm, farm-related and rural jobs.
- c. To review concepts and methodologies for the analysis of farm and rural labour.

Keynote speakers

Andrew Copus

James Hutton Institute, Scotland UK

Sophia Davidova, Thia Hennessy, Kenneth Thomson

(one joint contribution to raise questions for discussion, UK and Ireland)

Tassos Haniotis

European Commission

Francesco Mantino

CREA, Italy

Konstadinos Mattas

Aristotle University of Thessaloniki, Greece

Jerzy Wilkin

IRWiR Polish Academy of Sciences, Poland

Language

The working language of the seminar is English.

Topics

I. Maintenance/creation of employment in rural areas:

- a. Composition and activities of the on-farm and off-farm rural workforce.
- b. Trade-offs between technical progress and the maintenance of employment in agriculture and the agri-food sector.

II. The impact of CAP on agricultural and rural employment:

- a. Correlation of CAP expenditure with the development of agricultural and rural non-agricultural employment across the EU.
- b. Contribution of particular CAP measures having employment effect by modernising farms, setting up young farmers, and encouraging product value added and rural diversification, in particular MSs or regions (regional or sub-regional case studies are welcome).
- c. How the recently reformed CAP is addressing the issue of rural job creation compared to previous efforts, both in terms of more equal farm support through Pillar 1, and in terms of young farmers, short supply chains, farm modernisation and LEADER in Pillar 2.
- d. How further CAP reforms might address rural job creation, given socio-economic conditions in the later 2010s and beyond.

III. Methodological and data issues.

- a. Methodologies for measurement of job creation with regard to the CAP, e.g. gross versus net job creation, regional/national employment multipliers.
- b. Data sources (e.g. FADN, general EU employment and business datasets, AMADEUS) for analysis useful for investigating farm and rural employment patterns and trends. If such sources are likely to mislead, or contain gaps, what can be done to improve matters?
